EXPERIENCE

Full-stack Developer, MOHA Software **Mar 2026 – Present**

Outsourced web projects for clients in Australia and the UK.

- Delivered 5 production websites in health, infrastructure, retail and venture capital
- Built front ends from Figma (Next.js, Tailwind CSS) and CMS back ends (Strapi, NestJS), working with clients through UAT rounds
- Introduced Claude Code with MCP (Figma, ClickUp) to the team workflow, plus an AI review checklist that catches repeat bugs before release

READY.QUIT.SOLID – Galambila **Aug 2026 – Sep 2026**

Full-stack Developer | Next.js 16, TypeScript, Tailwind CSS, Strapi 5, PostgreSQL, HubSpot API | Pre-launch

- Led front end and CMS: built the Next.js site from Figma and designed the Strapi content models and APIs
- Integrated HubSpot CRM to route contact and newsletter sign-ups into the client's marketing tools
- Deployed staging with Docker on the company's self-hosted server and shipped client change requests (CRs)
- Raised Lighthouse scores to 86–99 performance and 96–100 accessibility on every page, mobile and desktop

House Nine & Nine and Found – House Nine (UK) **Jul 2026 – Sep 2026**

Full-stack Developer | Next.js 16, TypeScript, Shopify, Tailwind CSS, NestJS, Prisma, PostgreSQL, Redis, REST API, Docker | housenine.co.uk | nineandfound.com

- Developed 3 apps with CRs: 2 Next.js sites (studio, Shopify store) and a shared NestJS + React CMS
- Built the CMS admin: content editors, media library, users and roles

- Integrated the Shopify Storefront API for product listings, filters and search

John Holland Corporate Website – John Holland Group **Sep 2026**

Full-stack Developer (maintenance) | Next.js, React, TypeScript, Strapi 4 | johnholland.com.au

- Monthly maintenance: bug fixes, improvements and CRs across Next.js and a Strapi CMS of 50+ content types

Flip The Vape – VAHS **May 2026 – Jun 2026**

Front-end Developer | Next.js 14, TypeScript, Tailwind CSS | flipthevape.com

- Converted Figma designs into a responsive front end for desktop, tablet and mobile
- Created reusable UI components for the national site and 8 state and territory subsites
- Added animated, interactive sections and implemented client CRs

Landing Page – Hatch Quarter **May 2026 – Jun 2026**

Front-end Developer | Next.js 16, TypeScript, Tailwind CSS, Strapi 5 | hatchquarter.com.au

- Built 6 responsive pages plus header, footer and mobile navigation
- Connected pages to Strapi CMS and added interactive sections such as animated sliders
- Prepared the site for launch (UI feedback, SEO, sitemap) and maintained it after go-live

Intern Software Developer, ADD Group **Jul 2025 – Dec 2025**

- Built websites with HTML, CSS, JavaScript and Blogger, and Google Cloud integrations with Sheets and Chat
- Managed internal IT infrastructure: hardware, office network and on-premise servers

PROJECTS

Claude Code Skills – Coding Guide **In daily use**

Claude Code skills built from lessons learned on the projects above, used in daily work.

- Turned the most frequent bugs from those projects into a review checklist the AI agent applies to every change
- Automated bug fixing via ClickUp MCP (fix, self-review, open PRs, report back) with human sign-off

LoadForge – AWS Auto-scaling Playground **Sep 2026 – Oct 2026**

AWS (EC2 Auto Scaling, ALB, CloudWatch, ACM, SSM, IAM, GitHub OIDC), Terraform, NestJS, Next.js, TypeScript, Docker, k6, GitHub Actions | loadforge.quannh.xyz

- Provisioned the stack with Terraform: VPC, HTTPS load balancer, EC2 Auto Scaling, CloudWatch alarms and keyless GitHub OIDC deploys
- Raised throughput by 47% (26.7 to 39.2 req/s), cut health-check latency under load from ~20 s to 8 ms and scale-out from ~3 min to 30–50 s
